Personal Introduction

Over the past three-plus years, I have been on a detailed yet often unpredictable journey of teaching myself how to code. I have completed guided courses from Google and freeCodeCamp, alongside extensive self-directed learning through YouTube tutorials, Reddit threads, Stack Overflow, and GitHub projects. I have explored computer architecture, mathematical logic, design principles, object-oriented programming, and multiple coding languages, which led me to secure my first role in IT.

Personal Details

Nationality: Italian

Languages: English & Spanish (Both as a first language)

Email: laxaldejuana@gmail.com

Mobile: +44 7956 092 389
